### TEXAS PLEDGES GO TO M'ADOO

Two-Thirds of Delegates Given McAdoo Instructions

'TRUST BETRAYED'

Neff's Former Partner Raps Convention Acts

By United Press. DALLAS, May 7.—Control of Texas democratic convention at Waco, May 27, will be in the hands of the forces of William G. McAdoo, it was definitely determined today on the strength of results from Tuesday's county conventions.

Two thirds of the delegates to the state convention will be instructed for McAdoo, almost complete, returning from the county meets showed.

Understand Second

Unpledged delegates, controlled by Governor Pat Neff, and delegates instructed for Senator Oscar Underwood will represent the other one third of the state convention strength.

Underwood ran second in the county conventions, although he trailed a poor third in Saturday's precinct primaries.

Alvin Caudy, past commander of the American Legion, was endorsed by many of the Texas counties as a running mate for McAdoo.

President Coolidge was unopposed in the republican county conventions.

R. B. Creager, central figure in the federal investigation of alleged Texas land frauds, was endorsed by the county conventions for national committee.

Whole Scores "Betrayed"

Governor Imit Neff will head the delegation from McAdoo county his home, but the delegation will be instructed for McAdoo. Neff supporters charged the convention "betrayed" the instructions given them by the people in the precinct conventions.

The "Whole" Waco, secretary of the state democratic executive committee, former law partner of Neff, said:

"If the action of the McAdoo county democratic convention is any criterion by which we may judge the action of the state convention to meet in Waco May 27, then no one can tell what the state convention will do, because a considerable number of the delegates in the county convention betrayed a sacred trust and repudiated the solemn instructions given them by the people in the precinct conventions."

"I hope however that the action of McAdoo county in this respect is not a fair example of the democracy of Texas."

### Hiram Johnson Cuts Lead Of Coolidge in California

RURAL SECTIONS LEAVE COOLIDGE

Victory for President Still Conceded

ONLY 9,302 IN LEAD

Last Figures Stand 233,176 To 223,874

SAN FRANCISCO, May 7.—Senator Hiram Johnson was cutting down the lead of President Coolidge for the republican choice from California in late returns coming in during the morning.

It was believed hardly possible, however, that the result could be changed.

With 4,901 precincts reported, representing all but six of the state's 58 counties and amounting to better than 90 per cent of the vote, the figures stood:

Coolidge 233,176; Johnson, 223,874—Coolidge's majority 9,302.

The Coolidge vote had been reduced by unexpectedly heavy votes in outlying districts of California.

Result of Years of Work

The consolidation is a result of years of work on the part of the two branches.

It calls for two jurisdictions administered by bishops. The bishops of the two bodies will become bishops of the unified church. After the unification has been worked out the two bodies of bishops will unite and organize as one unit. A name will be selected by that time.

The plea for unification was led by Dr. William A. Sheehan, professor at Emory University, Atlanta, Ga., ex-Governor James D. Black, Danbury, Conn., also speaking in favor of the plan.

### North, South M. E. Church, Divided 63 Years, Again Unified

SPRINGFIELD, Mass., May 7.—The Northern and Southern Methodist church, divided since the civil war, were united by an overwhelming majority today.

When the subject was brought up 882 voted in favor of the unification and only 13 stood out against it.

The combined church will have a membership of 7,000,000. The membership in the North church now is 4,500,000 and in the South church 2,500,000.

The municipal auditorium was crowded when the session opened. Several speakers explained briefly the plan of consolidation.

Before the speaker in opposition could arise cries of "vote" were started.

The two branches were split 63 years ago during the civil war when northern and southern members took opposite stands on slavery.

The consolidation is a result of years of work on the part of the two branches.

# Style Show During Better Homes Week to Be Feature

Practical Furnishings To Be Shown By Furniture Dealers During Educational Campaign

That the style show planned for two nights during the "Better Homes Week" to be conducted here from May 11 to 15 by enterprising Port Arthur furniture dealers will not only bring to the attention of the public the most economical values to be had anywhere on the market, but will be one of the most unique programs that ever featured such an undertaking. The assertion made this morning by B. O. Newman, of the Vaughan-Lane Furniture company, "The style show," Mr. Newman said, "is to be one of the finest parts of the entire week's efforts. It will be very instructive and unusually interesting to the public."

A Real Style Show  
"The furniture dealers are interested in the 'Better Homes Week' purely for the advancement that it will bring to our home town, and because of the intrinsic educational feature we feel that it has for our customers."

"The show is going to be a real style show; it will bring out all the latest and newest designs, the most unique creations in furniture and furnishings, and it will result in teaching a public that we feel will be greatly interested in the most practical and economical things to use."

"It will be to the effort of the furniture men of Port Arthur," Newman went on, "to show the citizenship of this city how to furnish their homes properly and charmingly, and yet remain within the income of each individual."

Credit a Big Help

We hope to bring to the attention of interested Port Arthurians some really big facts concerning credit and its strong relation to our homes during the 'Better Homes Week,' and to show to the purchaser that it is as secure and to place heavy burdens of debt on the shoulders of our fellowmen, but to help him in every feasible manner to make his home attractive, lovable, wonderful, comfortable, and still stay within the bounds of reason."

"We are having this big affair to make suggestions to help plan the furnishings of your home and to help you finance the undertaking."

"The style show should not be overlooked by any woman or man in the city from 16 years of age on up; it will prove instructive and educational as well."

**Thrift Essays Written for First National Bank by Pupils of Port Arthur Public Schools**

"Save the pennies and the dollars will take care of themselves."  
Thrift is saving money and investing it. Do not spend foolishly, but wisely. Every one should spend less than he earns. A spendthrift or wasteful person, is a person who runs in debt and is half way to being dishonest, therefore one should buy only what he needs.  
Thrift has a stabilizing influence upon labor. Thrift working people buy homes and are satisfied and happy. They are never leaders of strikes or labor riots, while thriftlessness leads to lawlessness and vice. Humanity's greatest problem must be solved through thrift.  
Washington, Franklin, Lincoln—the nation's moralists, counseled the teachings of this virtue. Washington said, "Economy means happy hours and sound nation, instill it deep."  
Thrift has many points of contact in our lives. It means conserving health, energy, talent, time, food and materials to the best advantage.

## REPUBLICANS FOR COOLIDGE

### County Delegation Instructed for President

Port Arthurites took a prominent part in the Republican convention for Jefferson county held at Beaumont Tuesday afternoon.

Col. H. H. Dunn is retiring chairman of the county convention and Dr. W. T. McAlpin, whose home is in Port Arthur and who practices in Port Neches, was elected permanent chairman until the state convention.

The state convention is to be held among the 10 Jefferson county delegates to the state Republican convention at Dallas May 20. Other local people to be chosen delegates were H. M. Smith and Dr. W. S. Winter.

As alternate delegates, S. I. Dunn, J. I. Brennan and Mrs. Louise Brennan were chosen from Port Arthur.

The executive session of the convention began at 10 Tuesday morning. At 2 in the afternoon the county convention proper began. The resolution committee composed of Col. Dunn, chairman, and S. F. Bennett and C. A. Lord, of Beaumont, reported after about an hour's deliberation.

Calvin Coolidge was endorsed for president and the Jefferson county delegates pledged their support.

"Any report that the convention failed to endorse but went irretrievably on record as pledged to Coolidge and to do everything possible to secure his election, is a mistake," a prominent local republican said this morning. Accounts of the convention published elsewhere in the county had left the impression, Coolidge was endorsed but the delegation not instructed for him, according to the republican pointing out the error.

The convention reaffirmed allegiance in the "principles of Lincoln, McKinley and Roosevelt."

Secretary of the Treasury Andrew W. Mellon was voted resolutions of confidence as were R. B. Greager, republican national committeeman of Texas, and Eugene Nolte, state chairman.

## RUPTURE EXPERT HERE

F. H. Selley, of Chicago and Philadelphia, the best known expert, will personally be at the Corner Drug Co. and will remain in Beaumont Thursday, May 7.

The Hernia Shield will not only cure any case of rupture perfectly, but contracts the opening in 10 days on the average case. It is a vast advancement over all former methods—exemplifying instantaneous effects—immediately "uplifting" and withstanding any strain or position no matter the size or location. Large or difficult cases, or incisional ruptures (following operations) especially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions. Warning—All cases should be carefully examined by the use of any elastic or web truss with under-ropes, as same rest where the lump is and not where the opening is, producing complications necessitating surgical operations. Mr. Selley has documents from the United States Government, Washington, D. C., for inspection. He will be glad to demonstrate without charge the fit of the Hernia Shield.

Business demands prevent stopping at any other place in this section.

P. S.—Every statement in this notice has been verified before the Post and State Courts.—H. Selley.

### CARMEL MYERS STARS

Carmel Myers, according to reports from one of the most remarkable characterizations, to many already to be credit, as a cabaret performer in "The Love Pirate," a Richard Thomas Production, released by F. B. O., coming to the Liberty Theatre on Thursday. In the earlier scenes she portrays, admirably, it is said, the happy, carefree sophistication of a girl of this type. While later, when jealousy comes into her life, she invests the part with deftly conceived touches that carry her from the thought of love and happiness to hatred and revenge.

### AT THE AIRPLANE

Because of the threatening aspect of the weather last night Ferguson Brothers issued rain checks after the second act of "The Little Lost Sister." A large crowd was present. It will be presented again tonight.

This play is said to have created a very favorable impression here on account of the strong moral pointed out in it, also the fine work of the individual members of the cast.

Commencing Thursday, night, the company will present play "Woman Against Woman."

This play was presented at Beaumont and made a great hit, so big, they say, that the Ferguson Brothers decided to play it here. The story tells about the domestic life of a good woman whose marital relations are ruined by the machinations of gossip, but who conquers over all obstacles, of course, as in all good plays, all well that ends well. It is in five acts and will be mounted scenically in first class shape.

### HUNCHBACK OF NOTRE DAME

Attention to some apparently insignificant detail is often the deciding factor in making a motion picture setting portray reality. The producers of "The Hunchback of Notre Dame" were not satisfied with the playing in their street scenes until tons of cobble stones had been hauled 28 miles by motor truck and placed by hand. Likewise great care and preparation is represented in the scene in which Quasimodo pours molten lead on the heads of the mob storming the cathedral. Water could have been used to effect the illusion, but far more perfect result was obtained and extensive experimentation and research.

Sufficient light was on tap at Universal City during the filming of "Hunchback of Notre Dame," now playing at the Peoples Theatre, to illuminate a city of 100,000, and the current consumed during the production would supply an average small city for a year. Ten huge generator plants mounted on trucks were constantly employed on the grounds. A corps of 175 electricians manned those and the other equipment used in illuminating the vast areas in which the scenes were laid.

### THE SLAVE OF DESIRE

The French novelist, Honore de Balzac, author of "The Magic Skin," screened under the title of "Slave of Desire," and which will be the attraction for three days at the Pearce Theatre, beginning tomorrow, was the hero of a love story, equaling, if not surpassing, the strangest that ever came from his facile pen. Of the three women, who had the strongest influence upon his literary career and his personal life, Madame Hansa, a Polish-Russian countess, easily ranked first.

## EXES CALLED TO AID OF U. STAD

### 25 Here to Lay Plans At Session Thursday Night

A call for at least 25 Port Arthur exes of the University of Texas to meet Thursday night at 7:30 o'clock in the Chamber of Commerce and Shipping to receive assignments for the work of raising funds in this city for the Memorial stadium to be erected at the university, was issued today by A. A. Gunter, president of the local association.

The call for Texas University exes here to meet Thursday night followed a conference with R. H. Hickey, field manager for the Texas University stadium, when it was decided to complete the work in Port Arthur by next Tuesday night, when another meeting of Texas exes here will be held, Gunter said. Plans of the state work call for finishing up the half-million fund campaign by June 15. Up until the present time amounts pledged by the student body at the university, the citizens of Austin and scattering contributions from all parts of Texas approximately \$280,000, Hickey said here today. The students have pledged \$185,000 and the city of Austin \$118,000. The work is now being carried into north and south Texas simultaneously through local alumni associations.

"Expenses of the campaign to raise funds for the Memorial stadium are taken care of by individuals and none of the money being raised locally for the construction of the stadium are going into paying campaign managers' expenses," Hickey said. The pledges which are being secured are payable in two years, he said.

## TANLAC ALWAYS MEETS TEST SAYS TRAMEL

### Texas Hotel Man Tells How Medicine Restored Health Following Serious Illness.

David O. Tramel, well-known hotel man and real estate dealer, of 415 1-2 R. Erway street, Dallas, Texas, is another who has used Tanlac time and again with uniformly good results.

"It doesn't seem to matter what goes wrong, Tanlac always strikes the spot where the trouble lies and it is right out" is the way Mr. Tramel described his experience with the famous medicine recently.

"I first used Tanlac back in 1917 when the flu had me flat on my back for three months. This attack left me absolutely bankrupt so far as health was concerned, and not until I got hold of Tanlac did I begin to recuperate. But Tanlac certainly did wonderful work in reviving my appetite, setting my stomach in order and putting me back on my feet, and many a time in the six years since then I have used Tanlac to set me

right when it looked like I was in for serious trouble.

"For instance, two years ago, I got into a run-down, weakened condition. Almost before I knew it, my appetite left me and I began to lose weight. Coffee and toast was about all I could get, my nerve troubles were interfering with my sleep and I got to where I could hardly go. Again Tanlac fixed me up fine. It made me eat hearty and relish every mouthful, regulated my digestion, steadied my nerves and built up my weight and strength till my friends got to asking me what I had been doing to look so well. Since then, the occasional use of Tanlac as a tonic has kept me in the best of health. My mother has also used Tanlac with wonderful results. Tanlac certainly does its work and does it well."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

### Coat Dress of Twill

This looks like a coat but it is really a coat dress made in black and white pattern twill, with wide revers and an interesting lattice work effect across the front. While the lines of this frock are good for all figures, they are particularly kind to the woman who is a little overweight.

Miss Blanche Roper, a young pianist in High school, dressed as a belle of long ago, played "My Old Kentucky Home." A charming vocal solo, "The Last Rose of Summer," was given by Mrs. E. G. Ruffner, accompanied at the piano by Mrs. I. A. Durke, organist of the First M. E. Church, South, both of whom were dressed in typical pre-war costume.

## The Tangle

LETTER FROM LESLIE PRESCOTT TO LESLIE PRESCOTT, CARE OF THE SECRET DRAWER, CONTINUED

I just couldn't understand what my husband was getting at. Little Jack, and I said:

"But surely, Jack, it is a good thing for a woman who works to think she can take care of herself."

"It all depends," he said, "on herself. Some girls seem to take care of themselves too carefully, if you see what I mean. They want protection, but they pay so much for it sometimes, that there is nothing much left to protect, and so they lose the only splendid thing that life has given them."

"However, I think that is the great trouble with Mrs. Atherton, Leslie. She didn't want to be protected when she married. She made this perfectly obvious to her husband. In this she is not clever, for every married woman should make her husband her protector, even if in her heart she knows he isn't and couldn't be if he tried. I've rather wondered why your friend ever married at all."

"Oh, she and Sam thought they were really in love with each other at that time, but Sam was not a money maker and, of course, you know that Sally is. I don't think it's a good thing, Jack, for a wife to be able to earn more money than her husband. There's something in this that makes a man's gorge rise. A man with an inferiority complex is always a very disagreeable man to live with. In fact, I think I would rather live with the most egotistical man alive."

"Now tell me about Syd," I said. "You've no idea, dear, how interested he is in that foolish little car. I'm sure he's got it. I wouldn't be surprised if he went looking all over the earth for one just like it."

"Syd's a splendid chap, Leslie, and he'd make some girl an awfully good husband. I wish he would marry. In fact, I've never known why he didn't marry. I'm satisfied there's some hidden page in his life, but just what it is I have never known, intimate as we are."

"He'd make a nice balance wheel, don't you think, for a girl like Sally?" I observed. "Never in a thousand years," was Jack's vehement assertion. "Don't you go making any matchmaking plans that will take the most effective secretary I have ever had away from me."

I couldn't help smiling at Jack's earnestness, for in my heart I knew that Sally was the last woman that Syd would fall in love with. I just wanted to know what Jack would say about it.

Little Jack's sleepy wall called me from the room. I heard my husband go in his bedroom, and I knew that he was preparing for bed. I had had a very happy evening, little marriage, Jack and I had had something new to talk about and talking with some one you love on new things is very diverting and satisfying, if through it all there runs an undercurrent, of emotion which tells you that some one loves you.

I shall not write again, little Marquise, until I return from New York. LESLIE.

## HERGT PLEDGED TO DAWES PLAN

German Nationalist Chief Voices Reservations

BERLIN, May 7.—Deputy Hergt, nationalist leader who within a fortnight will be invited by President Ebert to attend formation of the next German cabinet, today pledged his party's support to the Dawes-Young plan "with some reservations."

In an interview with the United Press, Herr Hergt, a former Prussian minister of the interior who recently rose to leadership of the powerful nationalist group, declared his followers would make only such concessions as it was "physically possible to make." Certain reservations, he added, were "unavoidable."

The sum and substance of Herr Hergt's statement was that the nationalists will not sabotage the experts report.

If the nationalist leader fails to form a cabinet the old coalition will be tried.

ADVENTURES OF THE TWINS

By OLIVE ROBERTS BARTON

"You must carry me around all the rest of your life."

"Where would you like to go to-day?" asked Mister Muggs. "Does Sinbad the Sailor live in Once-Upon-a-Time Land?" asked Nick.

"Yes, indeed, he certainly does," answered Mister Muggs. "He has by far the grandest palace in the whole place."

The Twins got into the magic automobile, and it rattled away past seven seas and seven light-houses, and came at last to a country so gorgeous that they were almost blinded with its beauty. The roads were paved with amber, the fences were moonstones and the houses were made of gold.

The palace itself was built of a hundred kinds of gems which flashed and sparkled in the sunlight.

Sinbad the Sailor, now a rich prince, sent word for them to come in at once when they arrived.

So the three visitors sat down on a pile of silk cushions and tried to feel as much at home as they could.

"I'm so glad you came," said Sinbad hospitably. "I was just wondering to whom I was going to tell my adventures today. I've told my story to so many people there is hardly any one left who hasn't heard it. What would you like to hear about? The time the giant bird threw a rock on my ship and wrecked it, or the time I was left in the Valley of Serpents (each of them big enough to eat an elephant), or the time I got lost in a diamond valley and tied myself to an eagle, or the time I nearly starved on a desert island, or the time I—"

Mister Muggs looked at his watch.

"If we listen to all your adventures, oh, most gracious prince, we wouldn't be home until time for the morning on Saturday night, much as we should enjoy staying."

"Well, then," laughed Sinbad, who was an excellent natured as he was rich. "I'll tell you about the Little Old Man of the Sea."

"Oh, yes, we'd love to hear that," cried the Twins, pulling their cushions up nearer.

"Well," said Sinbad. "I was lost on a desert island on one of my travels when suddenly across a little stream I saw some trees hanging with delicious fruit. I was about to cross when a little old man appeared and begged me to carry him over."

"I'll do it," said the Twins, and he sat on my shoulder, crossing him to choke me, my chin as though to choke me."

"Now," said he, "you must carry me around all the rest of your life."

"Oh, no, I'll not," said Nick. "Nothing of the sort. I'm not in the tactics business."

"But," said he, "I saw the more I struggled the tighter he held, and I couldn't shake him off."

"Some sailors happened to land on the island for drinking water, and the Old Man ran off, or I suppose I should be carrying him yet. They brought me safely back home. The orchard belonged to a wizard and he kept the Little Old Man there to protect his fruit."

"If you come back again I'll tell you another story."

"Thank you," said Nancy and Nick. "We'd like to come back tomorrow."

CHILD'S STORY OF THE HUMAN RACE

By Uncle RAY

Public Fights Between Men

The Romans were not content to have ten fight animals in the public arena, they arranged to have ten battle one another with spears, swords and knives.

The men who did this kind of fighting were called "gladiators."

They were usually slaves who had been captured in war. Now and then they were the sons of "noble" families. Having lost their fortunes, they entered the arena to make money to live.

One of our pictures shows two gladiators on horseback riding against each other to hurl their lances. Both men wear armor and carry shields. The one at the left was named Delvira. He had been in 15 fights before, but in this fight he was beaten. The victor was named Nobilitor. He was a "slave of 13 fights."

The end of a different kind of combat is shown in our other picture. The fallen man at the right was called Kallendio. Instead of a shield, he had taken a net into the arena. He threw this net over the other gladiator, but it did not tangle up enough. Kallendio was hurled to the ground and killed.

Thousands of persons gathered around the arena in every part of Italy to watch these terrible "amusements." There were training schools for gladiators in many places. One such school was at Pompeii.

The custom of having men fight one another in public spread from Italy to some of the countries Rome ruled.

I am happy to say that the Greeks did not care for that kind of a show.

The Roman citizens of Corinth watched gladiators fight, but the real Greeks thought the fights were not worthy of men.

It was once proposed to put on the bloody games at Athens; but the attempt failed. One Athenian leader said that before the city could do such a thing it would have to tear down the altar of Pity.

**WANT CIVIL SERVICE STATUS FOR DRY AGENTS**

WASHINGTON, May 7.—Law enforcement officers will not accept bribes and themselves evade the law if they are placed under civil service, the General Federation of Women's Clubs and the Women's National Committee on Law Enforcement believe, and a movement to so place them will be launched at Los Angeles in June.

Allen H. Gardner, Washington, D. C., of the Civil Service Commission, will be a chief speaker.

She will explain the merit system and endeavor to show that the type of person who gets his job by examination instead of by political appointment is not the kind that can be bribed.

"The merit system," as the civil service is called, was established Jan. 16, 1883, when the president was authorized to appoint three civil service commissions to aid him in preparing rules to regulate and improve government service. The system has broadened in scope until today out of approximately 600,000 Federal employees, 400,000 are in the classified service, that is, have entered it through examination rather than by "political pull."

**How to build up your Weight**

To be under weight often proves loss fighting-power in the body. It often means you are minus nerve-power, minus red-cells in your blood, minus health, minus vitality. It is serious to be minus, but the moment you increase the number of your red-cells, you begin to become plus. That's why S. S. S. since 1826, has meant to thousands of underweight men and women, a plus in their strength. Your body fills to the point of power, your flesh becomes firm, the age lines that come from thinness disappear. You look younger, firmer, happier, and you feel it, too, all over your body. More red-blood-cells! S. S. S. will build them.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.
